Profile

During the last five years as a designer, I've been working with companies from various industries. My focus is to creating user-centric and human experiences solutions. Thanks to my background interests in psychology and development, I connect these knowledge with real business goals, and my ambition is to provide experiences of the user's needs.

Experience

Suera.io

UX UI Designer
2020 - 2022

Researched and identified problems in complex leading niche and start-up products. Designed and validated workflows experience solutions and close collaborated with multiple dev roles to drive alignments of the user and business needs.

The House

UX UI Designer
2019 - 2020

Define and deep understanding of user-centred problems, and strong analytical studies for a wide range of platforms including desktop apps, responsive web, web applications, native applications, and more.

IT Step

Design Instructor
2020 - 3 months

Taught the design students basic skills, approaches, and tools to effectively and compellingly communicate their ideas. Designed the course structure and interaction in learning curve.

Spendid

Web Designer
2018 - 2019

Design in eCommerce CMS solutions and flex applications for medium-sized businesses. Conduct design process and communication with clients.

Upwork

Freelancer *(one man army designer)*
2017 - 2018

Communication with clients and preparation of proposals to international clients from small and medium businesses. Preparation and implementation of pre-assigned tasks related to the execution of landing pages and brand identity.
